75 ANNUAL REUNION

JULY 18-21 2024

MIAMI VALLEY STEAM THRESHERS ASSOCIATION

Pastime Park, Plain City, OH

FEATURING

JOHN DEERE

"Preserving the past for the education of the future."

www.mvsteam.com

Greetings!

Welcome to the Miami Valley Steam Threshers Association 75th Annual Reunion. We are proud to feature John Deere for this special occasion. We are expecting several tractor clubs and many unique equipment pieces coming in from several states to attend our show.

Our directors work very hard for several months in advance to prepare for our four day event. We are always open to anyone's suggestions/comments on what we can do to make our event better. As we continue to grow, there is always something new from previous years.

So, we hope to see you and your families at the show. The Grand Parade will be very special with a lot of green/yellow tractors and the truck/tractor pulls are always entertaining.

Best Regards,

Asa Schreck
President
Miami Valley Steam Threshers Association
75th Annual Reunion

"Preserving the past for the education of the future."

Admission Prices

- Quiet time 11:00 p.m. until 6:00 a.m.
- One vehicle per campsite.
- No campers, vehicles, tracotrs, or golf carts permitted on walking path.

2024 Grand Marshall

Kenneth Folk

"Well now, that's quite an honor!" These were his exact words as 12 of his immediate family members joined in one big conference call to inform him that he was chosen as the 2024 Grand Marshall for the 75th Miami Valley Steam Threshers Annual Reunion and Show.

Kenneth Fulk, better known as Kenny, has lived his whole life in the Plain City area with most all of his family continuing to reside close by. He was born just east of Kileville and resides in the same house where he grew up. Recently, the Fulk Family Farm received a commendation from the Department of Agriculture for being an Ohio Sesquicentennial Farm dating back to 1854.

As a young father, he began his own business of Fulk Electric which he operated for about 30 years. Highlights of that business were wiring the Nau Grain Elevator, Youmans Elevator in Plain City and the Kileville Elevator. His electrical business expanded from a one-man show as he added employees to help him include plumbing and heating.

His next business venture was purchasing old gas pumps, repairing and reselling. Those sales led to selling new pumps and POS card systems. Economy Petroleum Equipment was in business for about 15 years.

He's mechanical-minded, with a wide variety of automotive interests, along with a passion for farming. These characteristics led him to the idea of building an articulating tractor, built to scale, which he created using two "junker" John Deere 318 lawn tractors. Upon completing the tractor and searching for a new "tinkering" opportunity, he was inspired by a big, new shiny combine he saw at a local farm-equipment show. He decided to build a John Deere combine from scratch, one-fourth the size of a real one and also built to scale. This monumental project took two years to complete and has been quite the sight to marvel in many parades and tractor shows around Ohio. The granddaddy of them all was attending the parade at the John Deere corporate show in Iowa.

His talent of being able to repair most anything that friends and neighbors gave him, led to a side line of repairing and selling used lawn mowers, specializing in John Deere. At the age of 95, he continues to be consulted for people's repairs as he epitomizes the old adage of "one man's trash is another man's treasure."

Safety Rules for Tractor and Truck Pulls

1. All pullers in all classes will need to have a support or tow vehicle. If teams do not have a support or tow vehicle, we will provide one to tow your truck or tractor. **(DRIVERS WILL NOT BE PERMITTED TO DRIVE VEHICLES TO THE SCALES OR DRIVE VEHICLES IN THE INFIELD - THE ONLY EXCEPTION TO THIS RULE IS TO UNLOAD.)**

2. All Tractor Pullers - after the pull, drivers will pull off the track and shut down and will need to be towed back to the hauler or back to the starting line if it was a dropped hook.

3. All Truck Pullers - after the pull, drivers will pull off the track and shut down and will need to be towed back to the hauler or back to the starting line if it was a dropped hook.

4. These new rules for 2024 are being implemented for your Safety your crew's Safety and the Safety of the fans and spectators. We will work very hard to get everyone from the haulers, through the scale, and to the staging area for line up. We will do this per the class order for the event.

5. With the above rules being added for 2024 we are asking that participants arrive 2 hrs. early prior to the show starting time of 6:00 pm. If you are running late please call to let us know so when you arrive, we can have a support vehicle ready to assist you.

John Deere

The story of John Deere, the founder of Deere & Company, begins with his birth in Rutland, Vermont on February 7, 1804. Deere was a blacksmith who became known for his ingenuity and craftsmanship. In 1836, the New England economy collapsed, and Deere moved to Illinois to escape bankruptcy and establish a blacksmith shop in Grand Detour. There, he began making tools like shovels and pitchforks, but his most notable invention was the self- scouring steel plow, which he created in 1837. Deere fashioned the plow from a Scottish steel saw blade, and it revolutionized agriculture by helping farmers work faster and till the soil more efficiently.

Deere was also involved in local politics, serving as Moline's second mayor from 1873–1875. During his time in office, he oversaw improvements to the city's infrastructure, such as paving sidewalks and installing streetlights.

Deere served as the company's president from 1837–1886, and the success of the steel plow laid the foundation for Deere & Company. The company initially focused on agricultural implements, but later recognized the need for reliable power sources to complement its equipment. Deere & Company became a leader in flexible manufacturing, which allowed the company to produce a wide range of products for different sized operations while responding to changing demand. In 1981, Deere built a factory in Iowa that used computers and robots to run multiple small assembly lines simultaneously.

Jerry Lee Morehart
Todd Day (OFEA Past President)
Michael Spriggs (OFEA Past President)
Rita Bauer
Howard Yoder
Anna Fay Holbrook

Howard Yoder passed away on May 19 after a very hard fought battle with cancer. Howard and this family ran the Sawmill during the steam show for many, many years (~27+ years).

He took pride in keeping the tradition alive as his family also had the sawmill on Smith Calhoun Road for many years. During the show, he worked tirelessly and made many, many lifelong friends. We appreciated his time and efforts while also sending his family our condolences.

Miami Valley Steam Threshers Association,
Board of Directors

Jack has been a member of the MVSTA and was one of the local businessmen that was instrumental in moving the organization to Plain City in 1989. During the show, you can find Jack and his line of Oliver tractors parked under a shade tree near the gazebo.

His father (W.E. "Brigg" Mercer) had The Oliver Sales & Service business which was started in 1926 in what is currently the Auction House on East Main Street. This was also a Hudson Dealership started in 1924 and what sparked his interest in Oliver tractors.

Jack used Oliver tractors on his local farm but also collected and restored many tractors over the years and took pride in everyone he restored. These were trailered to many state shows around Ohio.

We always look forward to seeing your wonderful collection of tractors on the grounds.

Thank you Jack! You are appreciated.

RUMMELL • BRILL • CASSADY

insurance agency since 1948

Insurance is our field, Farm Coverage is our *Heritage.*

Rummell-Brill Insurance Agency has been a cornerstone of the Plain City Community since 1948. And just like so many local farm enterprises, we are proudly family-owned and operated.

You may notice a logo change as we add the next generation to our masthead. We are excited to announce that daughter and son-in-law, Rose and Brian Cassady, have risen to the task of leadership roles on our insurance team.

While the name and look of our marketing has been updated, please note that all of the customer service and attention that you have come to expect will forever remain. Jenny and the entire team will continue to offer our community the best coverage at competitive rates - you can trust us. You have been for nearly 75 years!

For nearly 55 years, we have served our communities, partnered with customers, farmed our own land and helped you farm yours.

Like all farmers, we've celebrated, suffered, rejoiced, had good years and bad, and we remain steadfast with our efforts.

We are farmers, friends, family, innovators. We are young, older and everything in between. We are real. We are honest, hard-working, committed, & transparent.

We value our people, hard work, and our customers. In every sense, we are 100% employee-owned and 100% customer-focused. Together, we will make a positive impact on our customers, our communities and ourselves. **We are Bane-Welker.**

With over 300 employees ready to serve you. Come see us at any of our 15 locations. We are Bane-Welker, your partner in Agriculture.
